<p>2006 video game</p>

<p>Black is a 2006 first-person shooter video game developed by Criterion Games and published by Electronic Arts. It was released for the PlayStation 2 and Xbox in February 2006. The player assumes control of Jack Kellar, a black ops agent being interrogated about his previous missions involving a terrorist operation. Gameplay involves players confronting enemies by using firearms and grenades. The game is notable for its heavily stylized cinema-inspired action as well

as its sound quality and focus on destructive effects during gameplay.</p><p>Black received generally positive reviews upon release. Critics praised

the gameplay, sound design and presentation, but criticized the game's short length and lack of multiplayer. Despite Criterion's desire to develop a sequel, creative differences with Electronic Arts ultimately ended plans for one.

As such a spiritual successor, Bodycount, was created by the same developers at Codemasters and released in 2011.</p>
