<p&gt;I thought the game and awesome! The screen effects really made the stor
y come to life. And it wasn t
                             , boring where you just want to skip it through
and move on, you really want to read it and see , what was happening! But ther
e was only one problem, which caused me to delete the app. When you first open
   the app, they ask for your age, one of the options is 18 and under. So I clic
             , I start my first story. I really liked it! The story was well pla
yed out and I laughed a little
                            , too. But the only problem was that the
                                                                         F wor
   was put in there at least once in each story. , I think that is extremely d
isappointing that they would do that. If you click 18 and under, I expect the
 creators of the app to eliminate all the
                                       F words
                                                   and maybe more swears, I sa
y this because 18 and
                        , under does include 10 year old, and younger as well. I
do not think it is appropriate to add those , types of swears into the younge
r category. It s a bad influence on children and really dangerous when you expos
e them
         , to that kind of language. So I think that they need to fix that immed
                                       , for me. If they update it, and elimin
iately. It s ruined the app experience
ate the
         F word
                  from 18 and under category, I will gladly play , it again.&lt
